- or sick leave as provided in the laws in force shall not be included in the duration of the aforementioned employment contracts;
- c) Individuals not entitled to exercise civil and political rights;
 - d) Individuals who have been dismissed or relieved from office with a Public Administration for consistently poor performance or have been dismissed from a civil service job as provided in Art. 127, Letter d) of Presidential Decree 10.1.1957, No. 3.
 - e) Individuals who are related, up to the fourth degree, to professors belonging to the recruiting Department including the Rector, General Director, any member of the Board of Trustees.
3. The contracts outlined for this selection procedure (Art. 24, paragraph 3, letter b, Law 240/2010) cannot be accumulated with other research grants as per Italian Law n. 449 27th December 1997 Art. 51 and Italian Law n. 240 30th December 2010 Art. 22.
 4. Candidates are granted provisional admission, as the University Administration reserves the right to review applications and to exclude for just cause at any time until the end of the procedure. In this case a decree shall be issued by the Rector and the excluded candidate shall be notified by the Administration by registered post with notice of receipt or by certified e-mail (PEC) if provided.

Art. 3 - Application Submission Procedure and Deadline

1. To participate in the selection, candidates must submit their application within **30 days from the day following publication of the announcement in the Gazzetta Ufficiale della Repubblica Italiana – 4° Serie speciale – Concorsi ed Esami**. The publication of the selection announcement is also posted in the University, Ministry and EU websites.
2. The application for the selection procedure as well as qualifications, documents and publications are to be submitted telematically, on pain of exclusion, using the computer application available at <https://pica.cineca.it/univaq>. The computer application necessarily requires that the candidate has an e-mail account in order to register. Candidates must enter all data required to fill in application and attach all documents in .pdf format. The application form must be filled in all its parts according to the instructions given by the telematic procedure. **No other ways of presenting applications or documents for the procedure are allowed, except for the case described in Art. 5, paragraph 2 of this announcement.**

Within the deadline for application the system allows to save a draft of the application. The date of telematic submission of the application shall be certified by a receipt sent automatically by the system. **At 00:00 of the final day for application submission the system shall no longer allow to access and send the electronic form.**

An identification number shall be assigned to each application which, along with the selection procedure code indicated in the computer application, shall be quoted in any further notice.

For any technical problems candidates may contact technical support at: univaq@cinca.it.

3. The application submission shall be perfected and concluded in the following ways:
 - **By digital signature** using smart card, USB token or remote signature which allow the owner to sign general documents by means of a signature software or a Remote Signature web portal made available by the Auditor. Those who have a Digital Signature smart card or USB token shall verify that they are compatible with the Digital Signature system integrated in the system server. If so, the owner may sign the application directly in the system server (e.g. ConFirma);

- **Those who do not have compatible digital signature devices and the Remote Digital Signature Owners** who may access a web portal for signing general documents shall save in their own PC the .pdf file generated by the system and, without modifying it, digitally sign it in CADES format. A .p7m file will be generated, which shall be uploaded again to the system. Any editing to the file before signing with the Digital Signature shall interfere with the automatic check of correspondence between the content of such a document and the original, and this will bring to the application exclusion;
- **If none of the above-mentioned options can be used** candidates shall save in their own PC the .pdf file generated by the system and, without modifying it, print and sign it with full original signature in the last page of the printed document. A scanned .pdf copy of such a document shall be produced and the file thus obtained shall be uploaded to the system.

4. All applications are subject to verification, in any case the following shall be cause for exclusion:

- omission of signature, in accordance with laws and regulations;
- not including a copy of a valid identification document.

Applications deemed as lacking the required elements specified in the selection announcement or not in compliance with what specified in this article shall be excluded by Rector's Decree and candidates shall be notified of the said exclusion by registered post with notice of receipt or by certified e-mail (PEC).

5. In his/her application the candidate is required to declare the following:

- 1) Surname and name;
- 2) Date and place of birth;
- 3) Tax code (Italian and foreign citizens to which a tax code (codice fiscale) has been issued by competent authorities);
- 4) Residency;
- 5) Citizenship;
- 6) The selection procedure they want to participate in;
- 7) That he/she has the following requisites for participation as indicated in Art. 2 of this announcement;
- 8) That he/she is in possession of his/her civil and political rights

a) **Italian candidates** shall also state on their own account:

- Which electoral college they are registered in (municipality) and any reasons for lack of registration or deletion;
- Their current situation with regard to military service;

b) **Foreign candidates** shall also state on their own account:

- That they are in possession of their civil and political rights in their country or, supply the reasons for lack thereof;
- 9) That they have not been convicted of a crime nor are they aware of being subject to criminal proceedings or of any pending criminal proceedings against them;
 - 10) That they have not been dismissed or relieved from office with a Public Administration for consistently poor performance, or that they have not been dismissed from a civil service job as provided in Art. 127, Letter d) of D.P.R. January 10 1957, n. 3;

University issuing the selection procedure, the requesting Department, the academic recruitment field, academic discipline, position being applied for, name, surname, mailing address for all selection procedure related notifications, selection procedure code and identification number assigned by the computer application.

If the maximum number of publications indicated in the Attachments to this selection procedure is not observed, the system shall not allow to complete the application procedure.

Candidates cannot make references to other publications/documents presented previously to the University of L'Aquila or to any other administration/institution.

3. Works published in Italy will be assessed if they comply with legal standards and are pursuant to Leg. Decree n. 660, 31 August 1945 as amended by Italian Law n. 106, 15 April 2004 and Presidential Decree n. 252, 3 May 2006. This requires certification to be provided with the application or a personal declaration pursuant to Presidential Decree n. 445 28th December 2000; for works published abroad the date and place of publication must be indicated.
4. Publications written in a foreign language must be accompanied by a certified Italian translation by official translator or consulate/embassy. The translation process is not required for publications written in French, English, German and Spanish.

Art. 6 - Renouncing Participation

Candidates wishing to renounce participation in the selection procedure are required to write to the Rector to declare their intentions, including in their letter a photocopy of a valid identity document, to the following address: Settore Concorsi e Selezioni – Palazzo Camponeschi – Piazza Santa Margherita, 2 - 67100 L'Aquila, e-mail: conc@strutture.univaq.it. Their renouncement shall be made official during the first meeting following receipt of renouncement.

Art. 7 - Nomination of the Examining Board

1. The Examining Board is appointed by a Rector's Decree upon nomination of the Department requesting the position as per Regulations as to recruitment of fixed-term university Researchers appointment indicated in the introduction to this selection announcement.
2. The Rector's Decree appointing the Examining Board shall be published on the University's Albo Ufficiale and on the University website.
3. From the date the Rector's Decree nominating the Examining Board is published candidates have 10 days to state their opposition to any of the components of the Board. If the cause of the objection arises after the time indicated above so long as before the date of the Board's taking office, the period shall run from its occurrence. After this period, and anyhow after the Board's taking office, no instances may be presented.
4. The Board nominates a President and a Secretary.
5. The Board operates with the presence of all its members and takes decisions unanimously.
6. Participation in all Board activities is mandatory for all members.
7. The Board, after notifying the Head of the selection procedure, may hold meetings using telematic technology. At the end of the meeting the minutes must be drawn up, approved, and signed by the Secretary who has actually drawn them up. The other members of the Examining Board underwrite a statement in which they declare that they have joined the meeting and undersigned the minutes and then forward them telematically to the competent administration office. Where applicable, reference has to be made to the University's

Regulations (Rector's Decree n. 467-2016, April 18th, 2016 as modified by Rector's Decree n. 318-2020, March 17th 2020).

8. Expenses incurred may be reimbursed in accordance with the University's Regulations pursuant to Art. 7, Paragraph 12 in reference to the recruitment of fixed-term Researchers.

Art. 8 - Role and Duties of the Examining Board

1. In the first session the Board, having determined that in compliance with related laws, no incompatibility factors are present, outlines the preliminary assessment criteria and procedures for selection in compliance with the parameters indicated in Ministerial Decree n. 243, 25 May 2011, considering also the specific functions to be carried out by the Researcher.

The Board also establishes an analytical system to confer points to candidates after preliminary assessment has been completed. The Board then establishes which candidates are admitted to the interview, together with the criteria for testing their English language skills, and Italian language skills for foreign applicants.

2. The Head of the selection procedure is immediately notified of the above-mentioned results which are to be published on the University's Albo Ufficiale and on the website for at least seven days before the Board can move on to the next phase of the selection procedure. After determining the above said criteria and having read the Rector's Decree concerning the list of candidates admitted to the selection procedure, each member of the Board must state for the record that no incompatibility factors and conflict of interest are present.
3. The Board carries out a preliminary assessment determining if the candidates possess the requisites for participation in the light of what indicated in the announcement. The selection is carried out by assessing the candidates with a motivated analytic judgement on their qualifications, CVs and publications, including their Ph.D. thesis.
4. Following preliminary assessment, the Board will admit the most worthy candidates - 10 to 20 per cent of the original candidates – and no less than six in number - to participate in a public discussion of their qualifications and scientific work; all candidates shall be admitted to the discussion should their total number be equal to or less than six.
5. The list of candidates is drawn up by the Board and, along with the analytic evaluations, the notification of date, place and time of the interview and of the foreign language test, is published on the University's Albo Ufficiale and on the website at least ten days before the interview. **This is to be considered an official notification for candidates. Candidates are required to appear for their interviews on the indicated date with a valid identity document. It is important to remember that candidates are not notified individually but only through the above stated notifications published online. If the candidate does not show up, this shall be considered final renunciation to the selection procedure.**

Throughout the period of validity of the temporary Regulations concerning the procedures for carrying out interviews using telematic technology in the selection procedures for RTD/A and RTD/B as well as interviews for testing language skills in the selection procedures for First and Second Tier Professors, established by the Rector's Decree n. 339-2020, 26 March, 2020, the interview may be carried out by using the audio and video tools according to the Instructions on telematic connection at <https://www.univaq.it/section.php?id=1532>. In the section "Candidates admitted to interview" a **Notice shall be published following which candidates must fill in, sign and send within the date set for the interview a declaration to the following e-mail address: concRTDB@strutture.univaq.it. Not sending such a declaration shall be considered final renunciation to the selection procedure.**

6. Following the interview, the Board grades the candidate's qualifications, attributes a grade to each publication and assesses interview and foreign language skills. Once this has been completed the Board draws up a ranking of the candidates and deliberates (by majority) the winner of the selection procedure.
7. All proceedings are contained in the minutes of the meetings, including all the assessment results obtained during the preliminary meeting, grading of qualifications and publications, and interview to test English language skills. The results of all of the above are published on the University's Albo Ufficiale and on the website **which to all effects represents an official notification for the participants in the selection.**

Art. 9 - Time Limits of the Selection Procedure

1. The Board is to conclude all necessary actions within **four months** from the Rector's Decree nominating its members.
2. The Rector may extend the deadline only once and for no more than two months only in the case of exceptional and documented reasons brought forth by the President of the Board before the established deadline expires. If all procedures are not concluded even within the extended deadline the Rector shall proceed to the substitution of the Board members.
Anyhow, works shall be concluded within a reasonable period of time so as to allow the Researcher to go on duty from January 1st, 2021 to November 30th, 2021 or, anyhow, in case of motivated impediments, no later than April 30th 2022, according to Ministerial Decree n. 83/2020.

Art. 10 - Determining Validity of Proceedings

1. Within thirty days after the proceedings are consigned to the Settore Concorsi e Selezioni, the Rector issues a Decree establishing their validity and declaring the selected candidate. The Rector's Decree and the proceedings are published on the University's Albo Ufficiale and on the website. This, to all effects, represents official notification and from that date candidates have a period of time to file a complaint. The Decree is immediately passed on to the Department in charge of the appointment. The candidate selected shall also be notified.
2. If the Rector finds any irregularities in the proceedings he/she may make a motivated request to the Board to obtain rectification.

Art. 11 - Appointment by the Department

1. Within 60 days of the Rector's approval of the proceedings the Department Council that had requested the selection procedure must propose a date to officially appoint the new Researcher. The Head of the Department must convene the Council composed by the competent members. The proposal for the call is valid if approved by the vote of the overall majority of First and Second Tier Professors of the Department. In case of failure to reach such a majority the consequent resolution of not calling must be properly motivated with regard to failing the needs that had motivated the request of the selection procedure.
2. Failing to propose the call within the above-mentioned deadline or failing to properly motivate the resolution of not calling involves for the Department requesting the procedure the impossibility to start for one year a new selection procedure for the same Academic Discipline.
3. The Department's deliberation to call the Researcher must be approved by the University's Board of Directors.
4. Within 30 days of the date of the call approval by the Board of Directors the Researcher is invited to present all necessary documents for contract stipulation.

Art. 12 - Drawing-up of contract

A fixed-term (3 years) full-time employment contract shall be drawn up and underwritten by the Rector and by the Researcher.

During maternity leave the contract is put on hold and expiration date is postponed for a period equal to that of compulsory leave of absence.

All elements regarding fixed-term researcher contracts specified in Art. 11 of the University's Regulations must be indicated within said contract.

The number of hours required for teaching, integrated activities and services to the students is 350 hrs per year. Research activity is the subject of a specific scientific report to be submitted yearly to the Department's approval.

Given that the contract shall be pursuant to Leg. Decree n. 165, 30 March 2001, Art. 53, it is important to state that it cannot be accumulated with other employment contracts, research grants, Ph.D. or specialization courses, nor with any other earnings or grants from the University.

As regards the Researcher's duties the main duties established by law in reference to the category shall be applied. The University's Regulations as to assignment of teaching duties to professors and researchers (Rector's Decree n. 915-2017, 19 December 2017) will also be applied.

The Researcher appointed will be required to abide by the University's Code of Behaviour, not doing so shall lead to termination of contract. The Researcher shall also abide by norms regarding security, as established in Leg. Decree n. 81, 9 April 2008 as amended and supplemented and also contact the Health and Safety Service Office of the University to gather information on prevention measures to abide by while carrying out research.

The position is subject to all laws regarding termination.

Art. 13 - Salary and Social Security Benefits

The gross annual salary for fixed-term, full-time researcher corresponds to € **58.070,41**. The contract is subject to all social security and fiscal taxes.

Art. 14 - Documents for Contract Stipulation

The Researcher selected shall present all required documents together with all declarations certifying their requisites for appointment as pursuant to Presidential Decree n. 445, 28 December 2000 Art. 46 and 47 to the University's Settore Personale Docente e Ricercatori as specified in Art. 3, Paragraph 5, numbers 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 12, 13 in this announcement. The Researcher shall also present a personal declaration of certification regarding their marital status, household members, whether they belong to legally protected categories, whether they receive a pension, whether they are members of professional registers; they must also declare that they are not employed in any other public or private company or institution as pursuant to Presidential Decree n. 445, 28 December 2000, Art. 46 and 47.

If the Researcher is already employed by a public institution he/she must ask for a leave of absence from their job to accept the Researcher contract they have been selected for.

Before starting work the Researcher must undergo a medical check-up to obtain a certificate from the University doctor stating that their health allows them to carry out the job duties required; the Researcher can contact the Settore Personale Docente e Ricercatori to make an appointment with the doctor.

The University reserves the right to carry out sample checks to verify the information and certification presented.

Art. 15 - Personal Data

The handling of candidates' personal information is disciplined by Leg. Decree n. 196, 30 June, 2003 and Leg. Decree n. 101, 10 August 2018 implementing UE Regulation n. 679/2016. Personal information supplied by the candidates in the application form shall be collected by the offices of the University and processed for the purposes of the procedure and for the management of relations ensuing therefrom.

The provision of said information is compulsory, on pain of exclusion.

Candidates are entitled to exercise the rights provided in the Legislative Decree mentioned above, including the right of access to the data concerning them, the right to amend, update, complete or delete erroneous or incomplete data or data collected in a manner that is contrary to law, and to object to processing for legitimate reasons.

Art. 16 - Disclosure

This decree is made available on the University website (<http://www.univaq.it>), on the Ministry of Education, University and Research website, and on the European Union website.

Art. 17 - Reference to Implementation Modalities

For all matters not contained in this announcement, the resolutions, laws and regulations indicated in the introduction together with all laws regulating recruitment of University staff shall apply.

Art. 18 - Head of the Selection Procedure

Pursuant to Art. 5 of Italian Law n. 241, 7 August, 1990, dr. Loredana Taccone, Head of the Settore Concorsi e Selezione of the University of L'Aquila, is also head of this selection procedure.

Teaching Activities, integrated teaching activities and services to the students	<p>The Reseacher shall carry out teaching activities in the Academic Discipline MED/50 as planned yearly by the Department in the Bachelor's level degree and Master's level degree of the health area. He/she shall also carry out the following integrated teaching activities and services to the students: be a member of examination and thesis discussion committees, hold students' hours, assist students of the health area degrees in preparing their thesis and Ph.D. students in their dissertation research work.</p> <p>The number of hours required for teaching activities, integrated activities and services to the students is 350 hrs, of which 60 of class teaching. The total amount of hours required for research activities, teaching activities, integrated activities and services is 1.500 hrs per year.</p>
Maximum number of publications	20 (twelve)
Foreign language requisite	English
Assessment criteria	<p>With due regard to criteria and parameters provided in the law in force, the following assessment criteria shall be considered:</p> <ul style="list-style-type: none">- As for the assessment of the candidate's scientific activity, the Examining Board shall refer to criteria acknowledged by the relevant international scientific community especially as far as the candidate's individual contribution to publications is concerned;- A Ph. D. in the Academic Discipline MED/50 or related disciplines shall be considered a preferential title.

Academic Recruitment Field	06/E3 – Neurosurgery and Maxillofacial Surgery
Academic Discipline	MED/29 - Maxillofacial Surgery
Place of Work	Department of Life, Health and Environmental Sciences
Admission Requisites	A Specialization Diploma in Maxillofacial Surgery
Research Activities	The Researcher shall carry out research activities in the Academic Discipline MED/29 with particular emphasis on advanced surgical, microsurgical and endoscopic techniques in the oncological, and skull – maxillo – facial reconstructive field.
Teaching Activities, integrated teaching activities and services to the students	<p>The Researcher shall carry out teaching activities in the Academic Discipline MED/29 as planned yearly by the Department in the Bachelor's level degree and Master's level degree of the health area and in the medical Specialization Schools. He/she shall also carry out the following integrated teaching activities and services to the students: be a member of examination and thesis discussion committees, hold students' hours, assist students of the medical degrees in preparing their thesis and Ph.D. students in their dissertation research work.</p> <p>The number of hours required for teaching activities, integrated activities and services to the students is 350 hrs, of which 60 of class teaching. The total amount of hours required for research activities, teaching activities, integrated activities and services is 1.500 hrs per year.</p>
Medical Care Service	The Researcher shall carry out coordination and clinical-care activities in the field of the Academic Discipline MED/29 at the Maxillofacial Surgery Unit of ASL n. 1 (Avezzano-Sulmona-L'Aquila).
Maximum number of publications	20 (twenty)
Foreign language requisite	English
Assessment criteria:	<p>With due regard to criteria and parameters provided in the law in force, the following assessment criteria shall be considered: as for the assessment of the candidate's scientific activity, the Examining Board shall refer to criteria acknowledged by the relevant international scientific community especially as far as the candidate's individual contribution to publications is concerned.</p> <p>The following shall be considered a preferential title: a Ph.D., or an equivalent degree obtained in Italy or abroad, relating to the academic discipline of the position described; translational-clinical activity relating to research activity object of the present selection procedure.</p>

Academic Recruitment Field	09/E1 – Electrical Engineering
Academic Discipline	ING-IND/31 – Electrical Engineering
Place of work	Department of Industrial and Information Engineering and Economics
Research Activities	The Researcher shall carry out research activities in the field of Electrical Engineering with particular emphasis on the issues concerning signal integrity and electromagnetic compatibility in the analysis and design of electrical and electronic circuits, of signal and related models: linear, non-linear and time-variant, lumped and distributed, analogic and high bit-rate digital, neural as provided in the description of the subject of the Academic Recruitment Field 09/E1 – Electrical Engineering. Such approaches shall be applied to information technology, telecommunication, remote sensing for aerospace application systems, for automatic measurement systems of electromagnetic fields. Research activities shall focus mainly on the development of innovative technologies for the evaluation of signal and interference propagation phenomena in complex electrical and electronic systems. Research activities shall also deal with design and realization of discrete card circuits primarily for, but not limited to, high frequencies usually implemented within the Department as a support to research and teaching.
Teaching Activities, integrated teaching activities and services to the students	The Researcher shall carry out teaching activities in the Bachelor's Level Degree in Industrial Engineering and in the Master's Level Degree in Electronic Engineering as well as in the Ph.D. courses. He/she shall teach seminars, also in English, in subjects of interest to the Master's Level Degree students. The Researcher shall be a member of examination and graduation committees, hold students' hours and assist students in training as well as in thesis work, contribute to tutoring and orientation activities of the Department up to a maximum of 350 hrs per year.
Maximum number of publications	12 (twelve)
Foreign language requisite	English
Assessment criteria	The Examining Board shall assess the candidates considering criteria and parameters indicated in Ministerial Decree n. 243/2011.

Academic Recruitment Field	09/A2 – Applied Mechanics
Academic Discipline	ING-IND/13 – Applied Mechanics
Place of work	Department of Industrial and Information Engineering and Economics
Teaching Activities	The Researcher shall also carry out, as provided in the law in force, teaching activities and services to the students. In particular, teaching activities shall be carried out in the Bachelor's Level Degree in Industrial Engineering and in the Master's Level Degree in Mechanical Engineering as well as in the Ph.D. courses. He/she shall teach seminars, also in English, in subjects of interest to the Master's Level Degree students. The Researcher shall be a member of examination and graduation committees, hold students' hours and assist students in training as well as in thesis work, contribute to tutoring and orientation activities of the Department up to a maximum of 350 hrs per year.
Scientific Activities	Scientific activities to be carried out shall refer to the declaration regarding the Academic Recruitment Field ING-IND/13 - Applied Mechanics, as follows: "The scientific and teaching-training activity carried out in the field deals with Applied Mechanics. The field collects the cultural, scientific and professional aspects related to the study of mechanical systems, machines and their components, and structures: the study is dealt with a unifying, systematic approach by means of methodologies typical of theoretical, applied and experimental mechanics leading to the technological and industrial application focusing on environmental and energy sustainability. The typology of the mechanical systems considered is quite general: prime movers and operating machines, mechanical devices, mechanisms, transmissions and drives, automatic machines and robots, vehicles, transport and lifting systems, energy production systems, biomechanical systems, micro- and nano-components and systems. Theoretical and experimental methods and applications are developed concerning the mechanical behavior analysis, the synthesis and functional design of machines and mechanical systems through the study of kinematics, statics, linear- and non-linear dynamics, interactions with the environment (force fields, interactions with fluids) and between material surfaces (lubrication), automation and identification control. The implementation by means of hardware and software analogic and digital systems of the methods developed form integral part of the knowledge of the field. As a further response to design, development and implementation needs of innovative systems and components, the following are also studied: vibration, vibro-acoustic and tribological phenomena, mechanical systems control, mechatronics, fluid-structure interactions, monitoring, diagnostics

	and prognostics of mechanical systems, fluid automation and robotics, fluidics and microfluidics, ecofriendly systems and renewable energies. The field also investigates issues concerning pneumatic, hydraulic, electrical and non-conventional technology-based actuation systems (e.g.: smart materials) which now form integral part, along with control systems, of machines, mechatronic systems and many other structures. Strong interrelations apply to methodologies and algorithms developed in the field of design with the methods of industrial engineering, dimensional design and mechanical engineering, fluid dynamics, bioengineering, physical education, orthopedic and prosthetic surgery, care and rehabilitation methodologies, and finally the interpretation and analysis of machines of historical interest.” In particular, the Researcher shall deal with the field of fluid automation and pneumatic actuation systems also concerning the design and experimentation of systems in which the latter are integrated.

The field includes the basic and application subjects of Electrical Engineering regarding the components, systems, technologies and materials involved in production processes (from traditional or alternative sources, also in a distributed form, with cogeneration, storage, etc.), transmission, distribution, conversion and employment of electrical energy (in building works, industry, tertiary, territorial services, transportation, aerospace, etc.). Studies involve all the methodologies of electrical engineering (traditional and innovative) and of power electronics addressed to the study in static and dynamic conditions of components and electrical systems as well as those typical of control devices and systems, automation processes, mechatronics, informatics and communications. The studies cover all the issues concerning electromagnetic compatibility among the various electrical components and between the latter and the environment, the integration of components into systems, the management of conversion processes in power systems for industry, transportation and tertiary. They also cover the methodological and application aspects of reliability, quality, safety and economics. The field includes the scientific and teaching-training activity in the field of Power Electronic Converters, Electrical Machines and Drives: studies concerning the analysis, design, technologies, characterization, employment and integration of electrical
