TRACCE DELLA SECONDA PROVA SCRITTA

Traccia n. 1

Il candidato / La candidata supponga di lavorare presso l'Ufficio Relazioni Internazionali dell'Università degli Studi dell'Aquila e di ricevere la mail che segue. Fornisca una risposta adeguata, sulla base delle proprie conoscenze.

Good morning,

We are two students in the last year of the Bachelor's Degree in Computer Science, of French and Cameroonian nationality, respectively.

We have seen that there is an Erasmus+ call with deadline March 15th, 2022.

As we are both French native speakers, we would like to apply for studying one semester of the next year at UPMC - Université Pierre et Marie Curie. Next year we'll be first-year students of the Master's Degree in Computer Science. Can we apply? What about the amount of the scholarship we can get? Are there any other possible funds, for studying abroad, besides the Erasmus scholarship?

We have another question: since there is an agreement for Computer Science with York University (Canada), we would also like to go on Erasmus to Toronto for two terms in 2023/24. How much funding would each of us get? Will a visa be necessary?

Finally, we were wondering when and how we need to prepare the study plan for the mobility in both cases. Who is approving that? Are there any general rules or is there a professor we may ask about that?

Sorry for all these questions, but we are foreigners, our level of Italian is intermediate and it is difficult for us to understand the Erasmus call. We are very confused about the Erasmus programme and the whole procedure, however we would really like to go and study abroad. Can we possibly ask someone for support in filling in the application form, thus avoiding making any mistake?

Best regards,

Jude & Julien

Traccia n. 2 (Traccia estratta)

Good morning,

We are three students who are planning to graduate in July 2022 and then wish to be enrolled in the Master's Degree in Electronic Engineering at DIIE – Department of Industrial and Information Engineering and Economics, in September 2022.

We would like to study abroad in the second semester of the academic year 2022/23.

We are planning to apply for the Erasmus call with deadline March 15th, 2022. We would like to go together to the same University, take our car with us and rent an apartment together.

We are thinking about the following 5 possible institutions where we may go and study:

- University of Trieste (I TRIESTE01)
- Autonomous University of Barcelona (E BARCELO02)
- University of Patras (G PATRA 01)
- University of Hamburg (D Hamburg 01)

SETTORE CONCORSI E SELEZIONI

- Université Côte d'Azur (F NICE 42)

Can we apply for these destinations?

In 2021/22 Hanna and Nicole are enrolled in the Bachelor's Degree in Information Engineering at DISIM - Department of Information Engineering, Computer Science and Mathematics, and Guadalupe is enrolled in the Bachelor's Degree in Industrial Engineering at DIIE.

What can you advise us to do? Are there choices for each of us that are more suitable than others from the financial point of view? Can you tell us about possible advantages and disadvantages for the various options we have in mind?

Furthermore, it is not clear to us how to submit the application. We are foreigners, our level of Italian is intermediate and it is difficult for us to understand the Erasmus call. We are very confused, could you briefly explain the application procedure to us? We don't have SPID, can we submit the application anyway?

By the way, do you know about any other possible funds, besides the Erasmus scholarship, for a student going abroad?

Sorry for all these questions!

Best regards,

Guadalupe, Hanna & Nicole

Traccia n. 3

Il candidato / La candidata supponga di lavorare presso l'Ufficio Relazioni Internazionali dell'Università degli Studi dell'Aquila e di ricevere la mail che segue. Fornisca una risposta adeguata, sulla base delle proprie conoscenze.

Good morning,

I am a Vietnamese student in the fourth year of the Bachelor's Degree in Computer Science. I will graduate in July 2022. I am also studying Italian, a 300-hour course at the Hanoi University, and should reach an intermediate level by Summer. Apologies for writing in English, but my Italian is still poor.

I would like to come and study in Europe. I have seen that the University of L'Aquila is a partner of the Erasmus Mundus Consortium SE4GD - Software Engineers For Green Deal, and that the first semester of that Master takes place in L'Aquila, the second one is at LUT University (Sweden) and the third semester is carried out at the Vrije Universiteit Amsterdam, The Netherlands.

I have so many questions to ask, I don't know if it would be possible to make a videocall. In the meantime I am going to ask a few of them by email.

I applied for an Erasmus Mundus scholarship, but I am in the waiting list. Given my position in the ranking list, I think there are few chances of being selected. If I am not selected, may I enrol anyway? I have seen that there is an Erasmus Study call with deadline March 15th, 2022. May I apply to get a scholarship at least for the second semester carried out at LUT University (Sweden)? And then, will I be able next year to apply for the mobility 2023/24 to spend the third semester at the Vrije Universiteit Amsterdam?

How much is the Erasmus+ scholarship for me, being a Vietnamese? By the way, do you know about any other possible funds, besides the Erasmus scholarship, for a student going abroad? If I understood correctly, a visa is needed for studying in Italy. Do you have any idea of what the Italian Embassy will ask me in order to get a visa for studying in Italy?

I want to enrol at the University of L'Aquila in any case, even though it might not be possible as an Erasmus Mundus SE4GD student. More or less, how much does it cost to enrol in the Master's Degree in Computer Science at the University of L'Aquila? Even if I am not an Erasmus Mundus SE4GD student, I can apply for studying one semester in Sweden and one in The Netherlands, is it correct?

Thank you very much for your help. I hope to be able to talk with you in the next few days.

Best regards,

Thao
